Would you be interested in underwriting any of the costs of reproducing the three maps as indicated in the attached letter. The addressee of the letter, [REDACTED] is a most cooperative "consultant" of SR Division and he has asked me if there would be any agency interest. I would like to give him an answer, one way or the other, within the next 21 days.

The book by Suslov on the physical geography of Asiatic USSR, with the accompanying maps, is held in the Geographic Area. We believe that the underwriting of the high cost of reproducing English versions of three of the colored maps would not be justified, since researchers here can use the Russian version, and, moreover, count it as only one of a number of sources necessary for research on the area concerned.
